January 2018 PPeH Update

This January 2018 update sees the former Chapter 5 'Hypoxia & the Exit Bag' get a total rewrite.

With the demise of Balloon Time helium gas (these disposable, party balloon cylinders are now mixed with air), Nitrogen has become the gas *par excellence* for a reliable, peaceful, legal death.

However, the problem with Nitrogen has been its availability in countries other than Australia in a form that allows for a small volume, small cylinder & home-delivered.

Exit is now pleased to report that Max Dog Brewing has identified a Europe-wide supplier of small, home-delivered Nitrogen cylinders for purchase (not lease/hire).

Max Dog Brewing is also now shipping custom-made gas flow control regulators for that perfect 'home-brew beer'.

See pages 58 - 103 in the January 2018 update *Peaceful Pill eHandbook*.

**• London Chapter Meeting •
1pm, Thursday 25 January 2018**

The next London Exit Chapter Meeting will be held at 1 - 3pm at Dragon Hall (17 Stukeley St, WC2B 5LT) on Thursday 25 January 2018 (not Feb as earlier advertised).

Our very special guest speaker will be Gail O'Rorke from Dublin.

In 2015, Gail O'Rorke was charged with two counts of assisting a suicide and one count of attempting.

Her crime? To purchase flights to Zurich for herself and her seriously ill friend, Bernadette Forde. With advancing MS, Bernadette had been accepted for Dignitas.

After a 3-week trial in Dublin's Central Criminal Court, a jury acquitted Gail of all charges.

Gail has now documented her experience of what it can mean to be a 'good friend' in a book titled ***Crime or Compassion? One woman's story of a loving friendship that knew no bounds*** (published by Hachette Books).

Gail's story is a salient lesson in surviving the law when it comes to helping loved ones go to Switzerland.

All welcome.

Afternoon tea will be served.
