

Bequest to

Exit International

Final Exit (Australia) Ltd

ACN 102 986 005

Exit International is the non-profit organisation founded in 1997 by Dr Philip Nitschke. Exit believes it is the fundamental human right of rational seniors and the seriously ill to make informed end of life decisions based on sound knowledge and information.

In its 20 years of operation, Exit's important source of income continues to be donations. These gifts allow Exit to operate its public meeting and workshop program, local Chapter branches and support network, and ongoing Research and Development.

Exit International is always extremely grateful to receive bequests to support our work.

Should you be in a position to remember Exit after you are gone, we recommend that you contact a solicitor and include a bequest to Exit International in your will.

If you wish to make a bequest the following format is suggested.
